Introduction

What is it?

This document has been put together for the TF community to follow the progress of the ThreeFold Ecosystem. The Ecosystem includes strategic partnerships, token economies and application platforms that all live on our new internet. We list the both current projects and projects that are in the planning stage, all of which give structure to the TF Ecosystem. As the TF community continues to grow, the people and organizations who want to help and become actively involved become significant contributors to the TF Ecosystem.

Why do we do it?

The capitalistic society we live in today is focused on unrestrained growth without much concern for the planet or its people. This needs to change, we need complementary systems that balance growth with responsibility. We need to design technologies that empower people and protects our planet. We believe that people are fundamentally good, and given the freedom to be equal participants in the world, they will want to contribute to a better tomorrow.

ThreeFold, through its technology advancements, is able to bring about this freedom. We are building a responsible set of tools where everyone can participate in a responsible digital economy. These tools can be used by anyone and belong to no one. These include better more open ways to communicate, collaborate, exchange value and so on.

ThreeFold

THREEFOLD
connecting the dots

Home Grid Technology Tokens Team Partners Roadmap Blog ↗ Jobs More Info

RESPONSIBLE INTERNET FOR ALL.

Internet compute and storage capacity democratized. Open source software that creates neutral, green and private capacity by people for people. 100% decentralized.

[Watch Video](#)

- ThreeFold Foundation
 - A non-profit organization promoting the growth of the Grid and the digital currency behind (the TFT)
- ThreeFold Tech = "TF Tech"
 - A for-profit software technology company in Belgium
 - ThreeFold tech delivers the technology used by the TF Foundation as open source
 - ThreeFold tech also works with commercial partners to deliver this wonderful technology to companies, banks, governments, ...
- ThreeFold Love
 - A 100% sponsored effort to do good for the world
 - A very practical approach to empower small communities with the benefits of our ideas
- ThreeFold Ambassadors
 - An independent group of people promoting our ideas into the world
 - There will also be 30 technical Guardians who are independent validators of the technology and who will need to arrive at consensus about when to upgrade software, and to check that the software has been coded properly in line with the Foundation ideals

ThreeFold Foundation

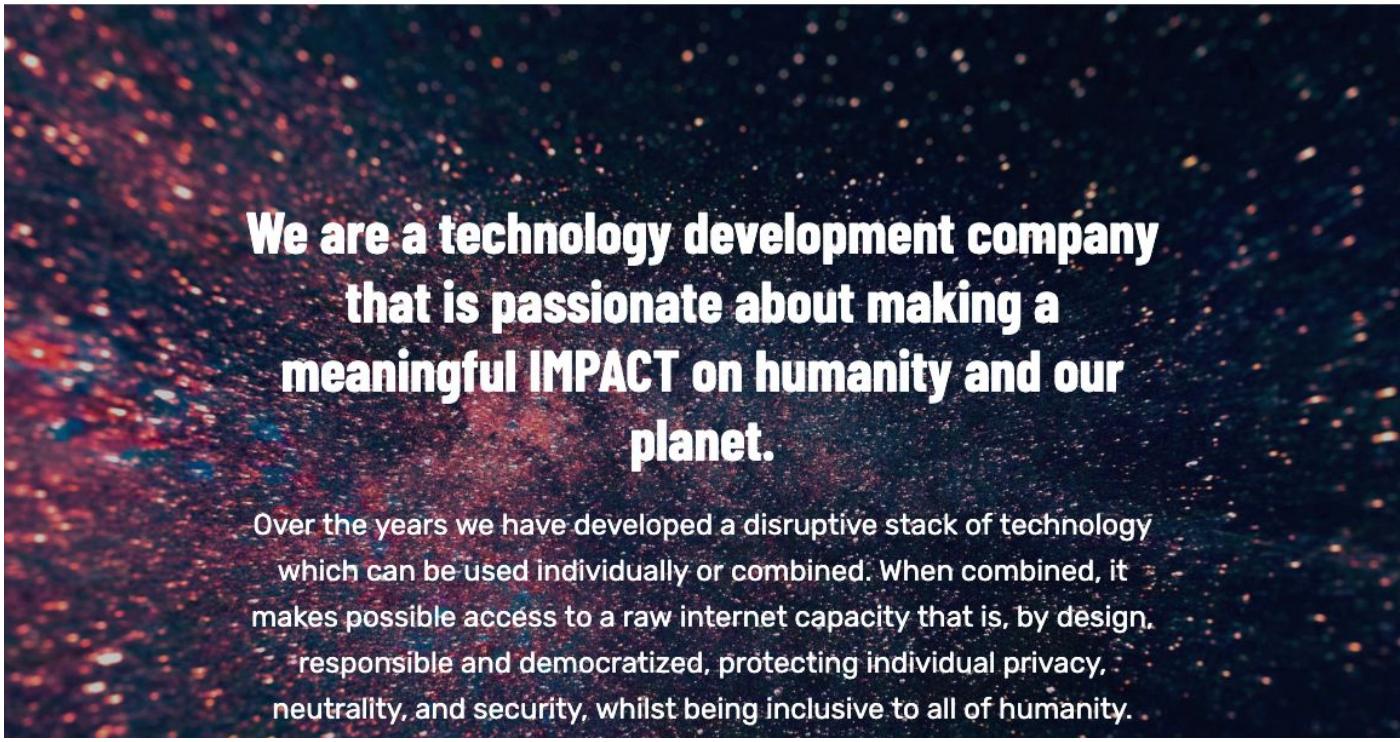

The purpose of the ThreeFold Foundation is to fund projects that benefit the growth of the ThreeFold Grid and to financially support “doing good” projects around the world.

- Discretionary Trust with charitable purposes (Non-Profit) in Mauritius
- Declaration of Trust signed = [Trust document](#)
- 5 protectors, as defined in the Trust document, protect the Trust
- Structure
 - The trustee runs the legal/admin aspects of the funds & receives a yearly fee for it
 - The protectors are consulted by the trustee
- Guardians
 - 60 guardians will instruct the protectors
(not currently in place - will take at least 6 months. Today, the protectors do it directly)
 - There will also be 30 technical guardians which will safeguard the IT code
- Today:
 - No monthly costs, No income, No one receives a salary
- Status:
 - Today some ambassadors and some of the ThreeFold farmers are doing the work for the Foundation (Mazraa, BetterToken, ...)
- Future Income:
 - 10% of all revenues of TF Grid
- Will be used for funding of projects:
 - Projects that aim to further develop the ThreeFold Ecosystem
 - Good projects (projects which have a benefit for the world and the environment)
- The decision to fund a project is made by the guardians, just like in a blockchain, and approved by the protectors
 - Projects will need to have a well-defined funding budget
 - Funding can be structured as a loan or as classic funding
 - Execution is done by the trustees, controlled by protectors which are advised by the guardians

ThreeFold Tech = TF Tech NV

THREEFOLD.TECH

TF TECH CREDIBILITY PASSION EXECUTION TECHNOLOGY CONTACT

**We are a technology development company
that is passionate about making a
meaningful IMPACT on humanity and our
planet.**

Over the years we have developed a disruptive stack of technology which can be used individually or combined. When combined, it makes possible access to a raw internet capacity that is, by design, responsible and democratized, protecting individual privacy, neutrality, and security, whilst being inclusive to all of humanity.

A technology software company in Belgium

- Company developing & promoting software for self-healing cloud & blockchain workloads
- TFTech is working together with industry partners to sell its software
- Income
 - License and OEM agreements involving the TFTech technology:
 - License fees can be in the form of a revenue share on commercial products being developed on top of the TF platform. This revenue share can be paid in fiat or by digital currencies
 - Example: With respect to the TF Grid, a fee of 10% of revenue generated is charged for as a license fee for certified edge cloud capacity registered on the TF Grid network
- Valuable
 - We believe this company has the potential to be a billion \$ company
 - For this to happen we want to prove to the world that the technology works on a global scale
- Funding
 - Funding round is currently active and is the focus of TF Tech in H1 2019
- Investors to this point:
 - Self-funded by founders & current funding round
- [Factsheet about TF Tech NV](#)

3Bot

HOME DECK

SUBSCRIBE

3BOT YOUR VIRTUAL ASSISTANT & GUARDIAN **ONLINE.**

[SUBSCRIBE](#)

The 3bot is the center of your digital life, it can manage your digital money, your IT capacity, your own personal information, it can communicate on behalf of you, ...

To read more about how the 3bot allows you to become the center of your digital life, see [this document](#).

To function properly and remain active on the TF Grid each 3Bot requires ThreeFold Grid capacity and thus ThreeFold Tokens.

This project is one of the major use cases on the TF Grid. Promoting the usage of the 3bot could be one possible path toward building a user base on top of our ThreeFold Grid.

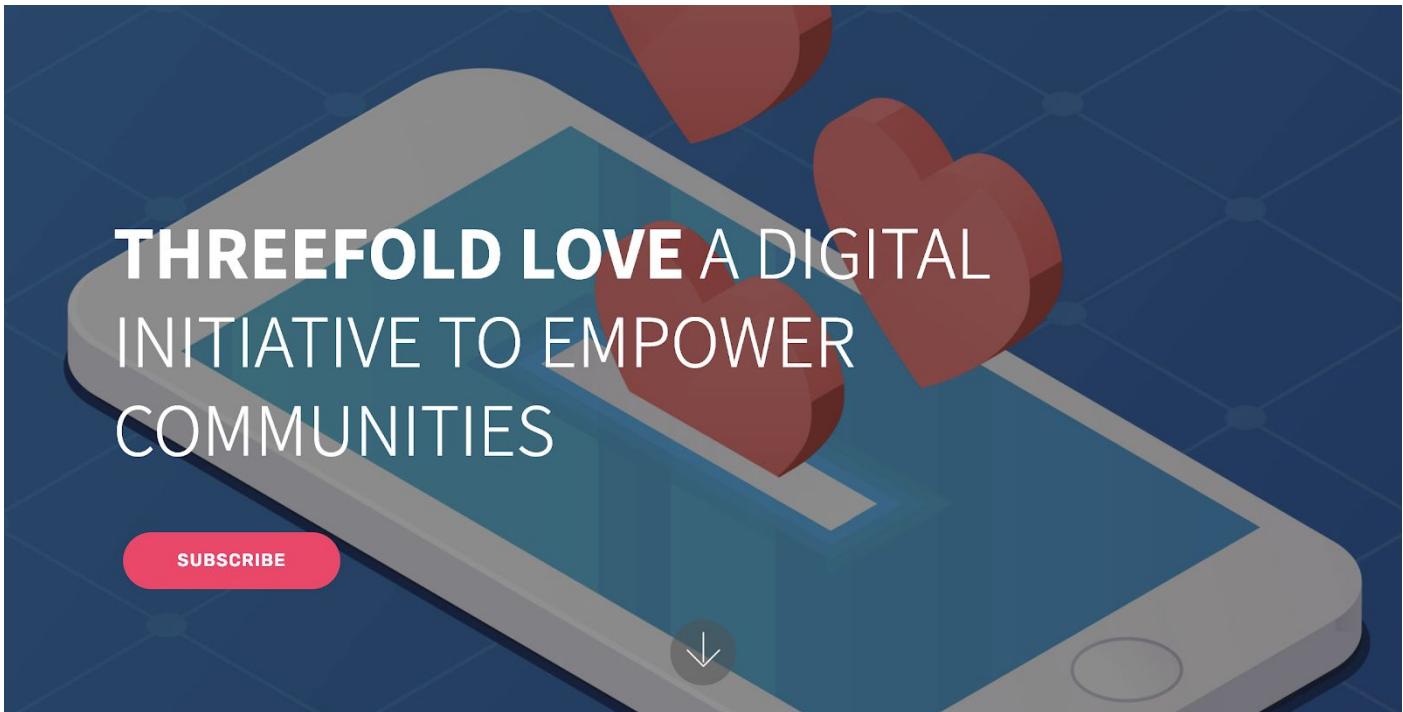

The 3bot technology is developed by TF Tech.

Website: <http://www.3bot.org/>

FreeFlowPages: <https://freeflowpages.com/s/3bot/>

We are looking for a team of volunteers who would like to own both this project and its associated marketing.

ThreeFold Love

A tokenized initiative promoting the TF Token Economy while supporting the growth of worthy causes and projects. This is a group of volunteers.

Mission:

ThreeFold Love is a people-centered movement behind the technology, working on the ground to activate and engage communities around the world to come together to become more responsible digital citizens. ThreeFold Love invites nonprofits, grassroots organizations and the rapidly expanding global conscious community into *the fold*.

- TF Love Stories, ThreeFold Love Farm, Love Nodes
- Public & TF Community Engagement
- Empowering women and marginalized communities by guiding them into the digital economy
- Alternative fundraising methods for grassroots projects
- Digital Platform (coming soon)
- Connect with us and share your love stories with us on FFP, Instagram ([@threefold.love](https://www.instagram.com/threefold.love)), Twitter ([@love_threefold](https://twitter.com/love_threefold)) & FB

Purchase TF Love branded fair trade merchandise and TF Love swag (stickers, pins, t-shirts, caps etc.) that directly support the causes we partner with. [TFT Accepted :)]

Website: threefold.love

FreeFlowPages: <https://freeflowpages.com/s/tflove/>

ThreeFold Ambassadors

Ambassadors are at the heart of the ThreeFold movement today. They play a very important role as advisors to the Foundation and help by spreading the movement globally.

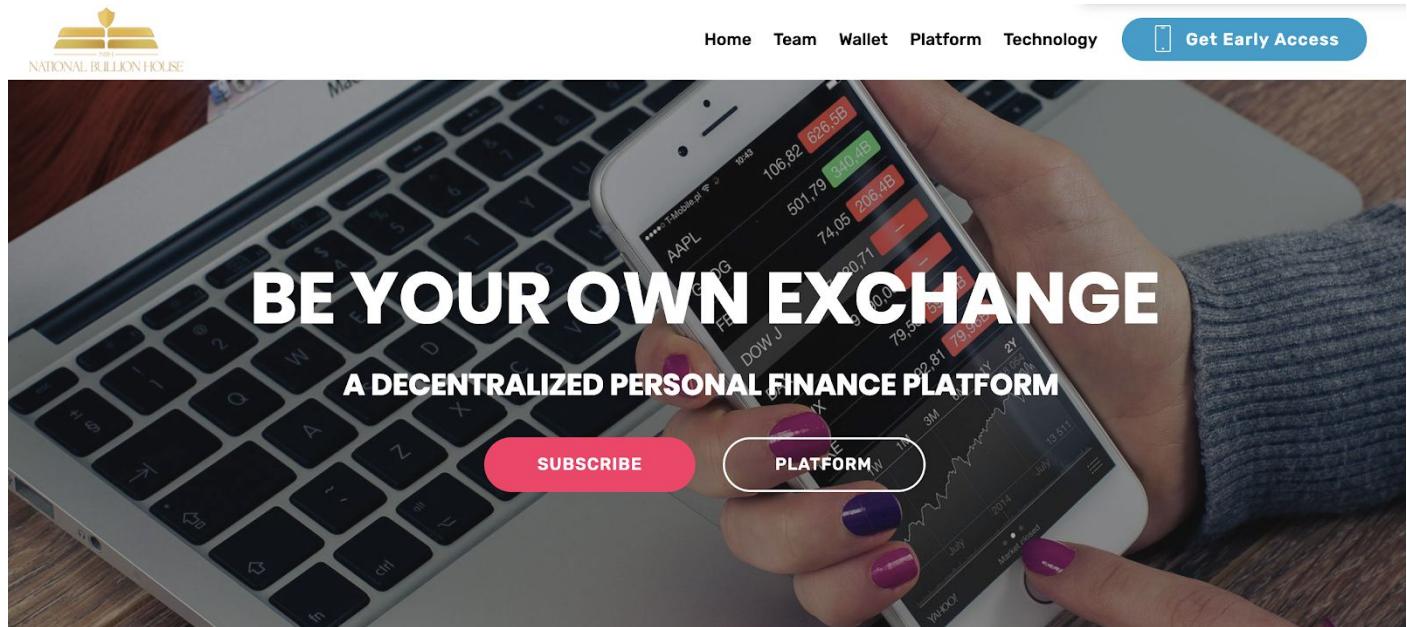

- This community has been established for individuals to contribute their available time, energy and valuable input to assist in further development and expansion of ThreeFold
- There are currently approximately 100 Ambassadors assisting the ThreeFold Foundation. Most of the ambassadors volunteer their time, but some are remunerated with TFTokens - we hope to reward more ambassadors for their valuable time and efforts in the future
 - The TF Tokens used for this are donated by TF Farmers like Bettertoken and Mazraa

Anyone can become a TF Ambassador, all you need is to have the desire to spread the word about A Responsible Internet for All to your community!

Token Ecosystem Projects: Utilization & Promotion

This section lists all projects and organizations that directly involve the ThreeFold Token economy through utilization and/or promotion.

NBH Digital

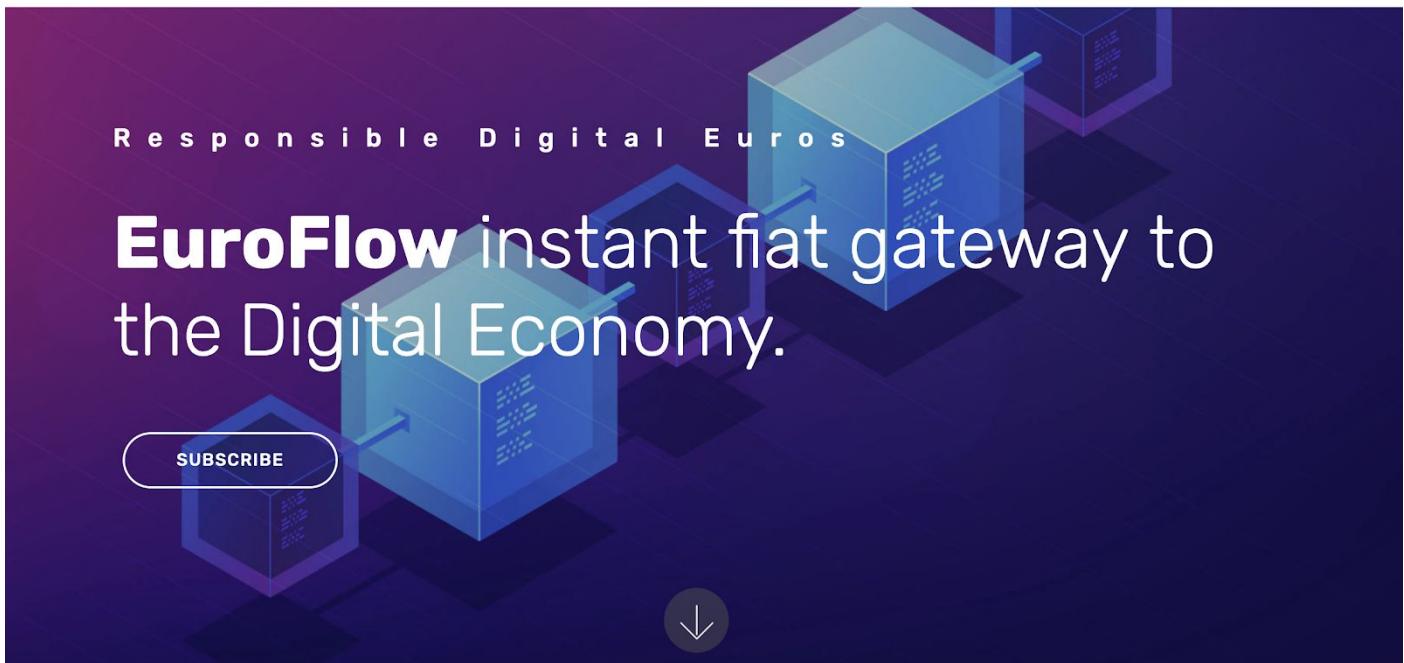

- NBH, based in Cyprus, is one of the largest gold traders and Forex exchange brokers
- Enabled by TFTech, they are building the first decentralized Forex platform using TF's technology built on the TF Grid
- NBH Digital is launching a gold token where 1 gram = 1 gold token using their gold trading network operating on top of the TF platform
- NBH Digital will also be launching a Euro-backed stable token on the TF platform to enable onboarding of Euros onto the TF platform through a bank (or financial institution) in Malta and/or Cyprus
- Users will be able to see their gold tokens, euro stable tokens and TFT in their digital wallets and be able to transfer between them instantaneously

Websites: <http://nbh-digital.com>

FreeFlow Pages: <https://freeflowpages.com/s/nbh-digital/>

EuroFlow Token

HOME FEATURES  SUBSCRIBE

EuroFlow Token (EFT) is a project in collaboration with ThreeFold and NBH Digital EU.

Euros € (fiat) are exchanged 1:1 for EFT's which are printed and held in a digital wallet. Each EFT is backed by an equal amount of Euros held as collateral in reserve accounts. Furthermore, EFTs will be backed by Gold (hedged value) to protect against “bank crashes”, and will provide an even further security and stable digital Euros. ETFs can then easily be used to purchase paired digital currencies instantly. Finally, EFTs can be restored back into Euros at the same 1:1 rate. Redeemed EFTs are then burned.

The EuroFlow project will follow all legally necessary KYC/AML requirements. It will be obligated to list daily assets statements and adhere to regularly scheduled independent audits that vouch for the existence of all Euros backing each EFT. This will then be hashed to the blockchain.

- Runs on the TF Grid, using TF blockchain technology
- 1 EuroFlow Token = 1 € Euro
- Need bank (or financial institution) that would facilitate heavy transactional usage in/out of digital currency and Euro fiat

Summary:

- TF will provide a Euro tokenization platform as a tokenized asset which will be backed 1:1 by collateral held in reserve accounts
- This will give the ability to bridge fiat entry to the TF Platform

Website: <http://euroflow.io>

FreeFlowPages: <https://freeflowpages.com/s/euroflowio/>

GoldFlow Token

GoldFlow Token (GTF) is a technology collaboration between ThreeFold Tech and NBH Digital EU. Together they will enable a liquid digital gold token; which will allow users to instantly buy and sell gold as well as purchase goods and services.

With every gram of gold physically deposited in the gold vault, one digital GFT is printed and held in the depositor's GFT digital wallet. When GFTs are redeemed for physical gold, those GTs are burned.

GOLDFLOW.IO

HOME ABOUT SUBSCRIBE

RESPONSIBLE DIGITAL GOLD

GoldFlow instant access to liquid gold assets.

Buying, selling and transferring gold will follow all legally necessary KYC/AML requirements. Regular audits will be taken by authorized bodies vouching for the existence of all the gold backing each GFT. This will then be hashed to the blockchain.

- Runs on top of TF Grid, uses our blockchain technology
- 1 gram of gold backed token
- Stored in Denmark and other vaults

Summary:

- Partnership with NBH EU
- We will support launching a new gold backed token (1 gram of gold = 1 gold token) built on top of the TF Network and available to all TF wallet holders
- TF Community will be able to instantly store their value in gold with the click of a button

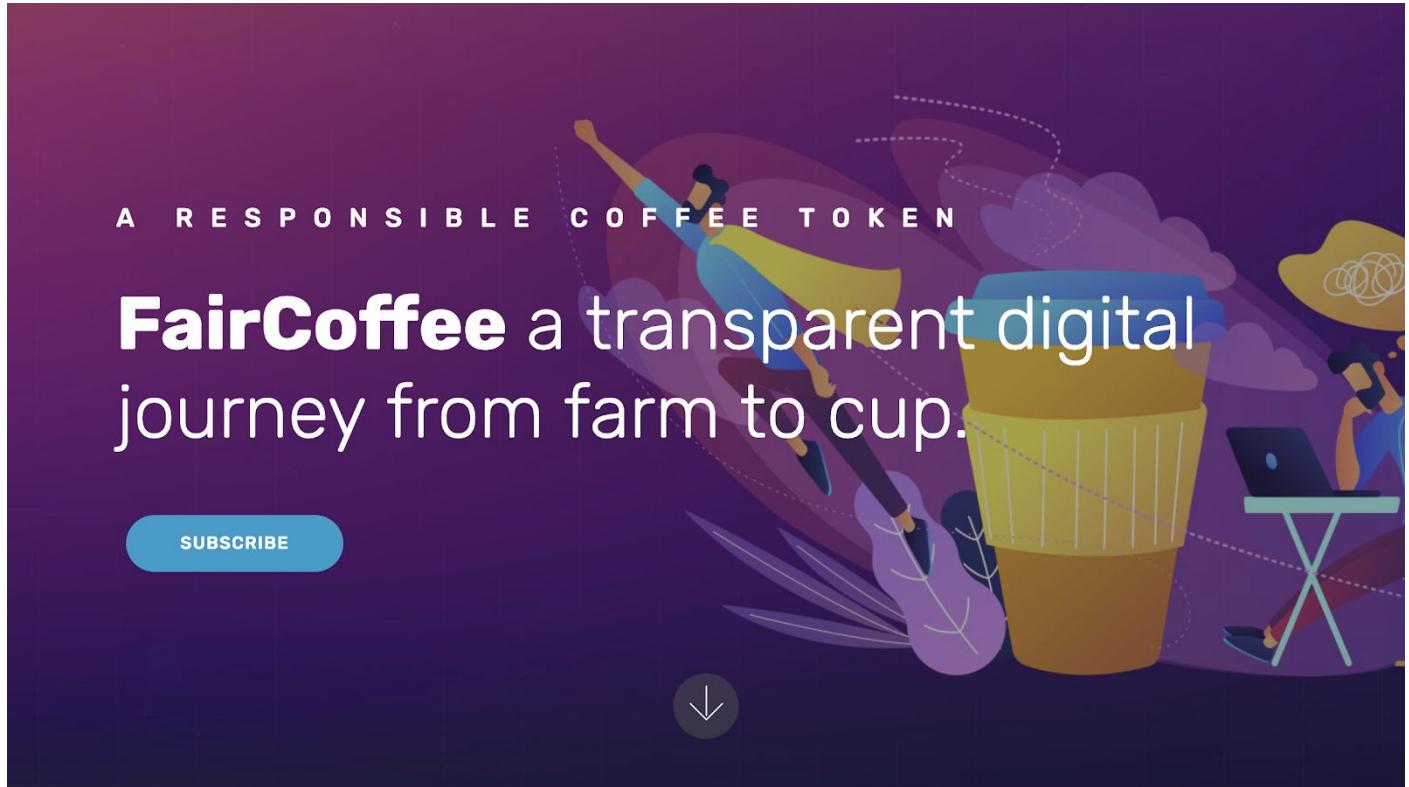

Status:

- Agreement with TF Tech to develop
- Execution team already starting the development
- Legal, KYC and AML are already in place, but if possible legally and within regulations, modify to be able to run through smart phone
- Secure vaulting already in place

Website: <http://www.goldflow.io>

FreeFlowPages: <https://freeflowpages.com/s/goldflowio/>

FairCoffee Token (idea & exploration phase)

Project in a cooperation between ThreeFold and [Solidaridad](#).

This project is in the exploration phase. Dedicated to bringing fairness and transparency to the international coffee trade through the use of ThreeFolds Blockchain and internet capacity technology.

Website: <https://faircoffee.trade/>

FreeFlow Pages: <https://freeflowpages.com/s/faircoffeetrade/>

FreeFlow Tokens (idea & exploration phase)

FREE FLOW TOKEN

HOME DECK

SUBSCRIBE

Free money for everyone, powered by everyone.

The aim of the FreeFlow Token (FFT) is to value human effort translated to 1 FFT. This is a virtual digital token that can be utilized as a means to create value based on community and effort.

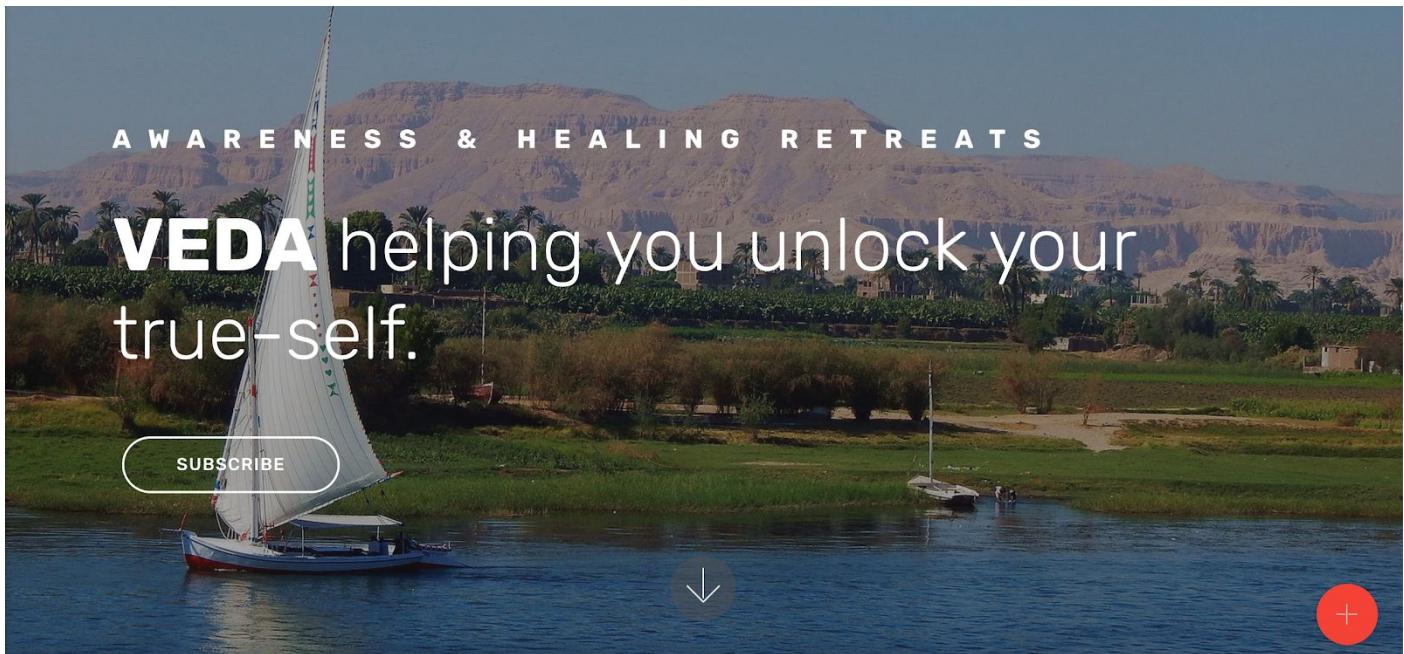

- Each FreeFlow Token user will need a 3Bot to get started
- This project will grow once the 3bots are fully operational

Website: www.freeflowtokens.com

FreeFlow Pages: <https://freeflowpages.com/s/freeflowtoken/>

We are looking for a team of volunteers who would like to own both this project and its associated marketing.

Veda Retreats

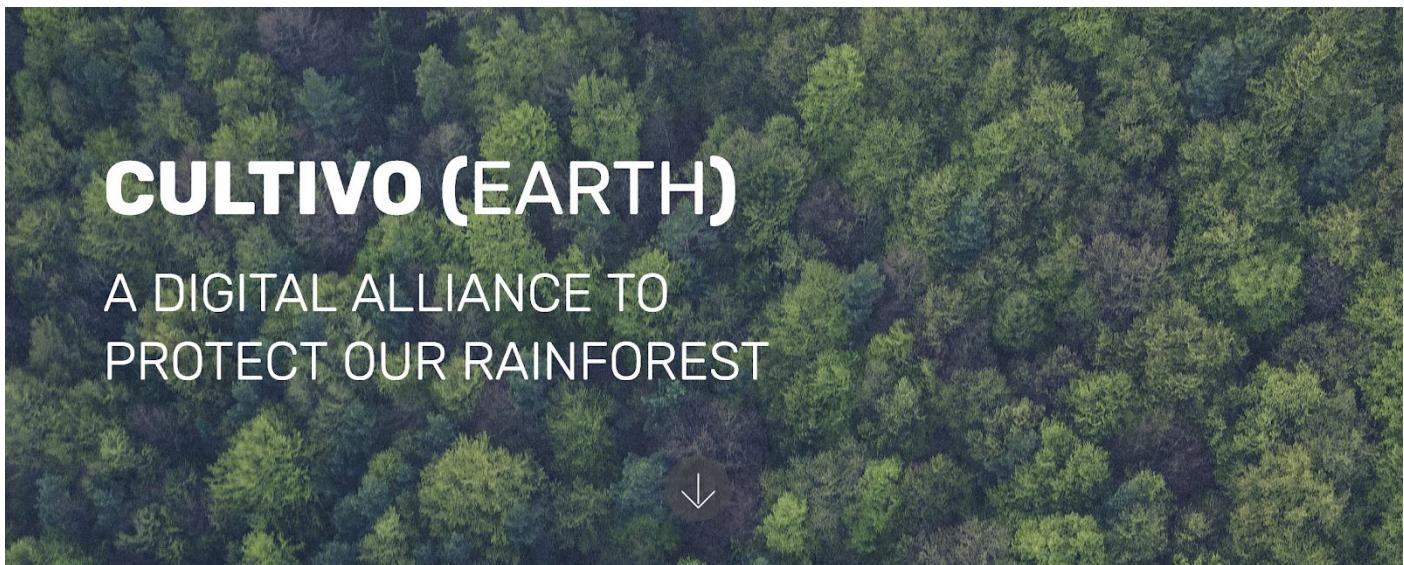

Veda's mission is to offer support and guidance to those who feel the calling to increase awareness and to help you find that place of inner peace and softness. Our world can be perceived as rigid, limiting, controlling, or fearful. Many of us are trying to find places to escape. But what if you can find that harmonious and joyful place completely inside you? Veda organizes events on the Nile and in Ibiza open to all who want to participate.

Veda is planning to launch a charity-purpose Education Token

- 1 Education tokens used = 1 TF Token (white label)
- Will give possibility for people to fund their learning programs
- Each student gets X tokens as a reward which can only be used for education

FreeFlowPages: <https://freeflowpages.com/s/veda/>

Cultivo

CULTIVO (EARTH)

A DIGITAL ALLIANCE TO PROTECT OUR RAINFOREST

A digital alliance to protect our tropical rainforest and empower its inhabitants.

Mission:

Empowering farmers with digital technologies to regrow our natural environment through the use of ThreeFold digital technology. Cultivo is able to focus its attention on what matters most: Forests-Farmers-Food

About:

In the tropical rainforest of southern Costa Rica, Cultivo is an organization that carries out and promotes reforestation and organic food forest farming, using regenerative methods and practices in close harmony with the natural environment. At the same time it provides sustainable livelihoods and access to responsible digital technologies for farmers and rural communities.

Cultivo's objectives are ThreeFold:

1. Alleviate the destruction of our rainforests and natural environment
2. Lessen the technological divide to allow farmers to become part of the digital economy
3. Provide sustainable economic opportunities for farmers and their families

Cultivo provides sustainable economic opportunities for farmers and their families by empowering them to become part of a digital economy. This empowerment drives organic cultivation with equitable monetary reward, while at the same time alleviating the destruction of our rainforests and natural environment.

To achieve its mission and objectives, Cultivo:

- Regrows forests and farms by promoting the practices of regenerative, “food forest” farming in harmony with the tropical rainforest and its natural wildlife
- Establishes land buffers between organic farmers and industrial mono-crop farming
- Invests in research and education to build local capacity and promote knowledge sharing
- Provides a digital platform that enables farmers to tokenize land and products
- Provides direct markets for agricultural products produced by local farmers

Websites: <https://cultivo.earth> / <http://www.bolleyfarms.com/>

FreeFlowPages: <https://freeflowpages.com/s/cultivo/>

Enertia: Blockchain enabled electric car charging network

DECENTRALIZED EV PLATFORM

EV LIFE MADE EASY

Electric Vehicle Platform for Smart Cities

SUBSCRIBE

PLATFORM DEMO

Enertia is focused on developing an open source charging platform built on top of the ThreeFold platform. Enertia is part of the ATW.Green incubator.

Enertia is a tech company based in the United Arab Emirates focused on promoting sustainability and energy efficiency by applying ThreeFold technology to improve energy storage, distribution and scalability within the Middle East.

Its core business is consultancy & services aimed at making our lives on the planet more sustainable.

- Enertia EVToken 1-1 relation with TF Token
- Target of 500 charging stations in Dubai
- OEM partnerships (Car Manufacturers)
- Governmental support

Website : <https://enertia.io/>

FreeFlowPages: <https://freeflowpages.com/s/enertia/>

ThreeFold Impact Fund (planned)

The image shows the homepage of the ThreeFold Impact Fund website. At the top left is the ThreeFold logo with the tagline "connecting the dots". To the right is a horizontal navigation bar with links: Emerging Markets, Foundation, Impact, Team, Contact us, Chat, and News. Below the navigation is a large, stylized graphic of a globe composed of numerous small, glowing green dots, representing a network or grid. In the center-left, the words "THREEFOLD IMPACT" are written in large, bold, white capital letters. Below this, a text box states: "ThreeFold Impact facilitates the deployment of ThreeFold internet capacity in Emerging Markets." At the bottom left of the page is a green button with the text "Contribute to ThreeFold Impact".

THREEFOLD IMPACT is a socially responsible development vehicle seeded by the ThreeFold Foundation to accelerate adoption of the ThreeFold Decentralized Cloud technology in emerging markets.

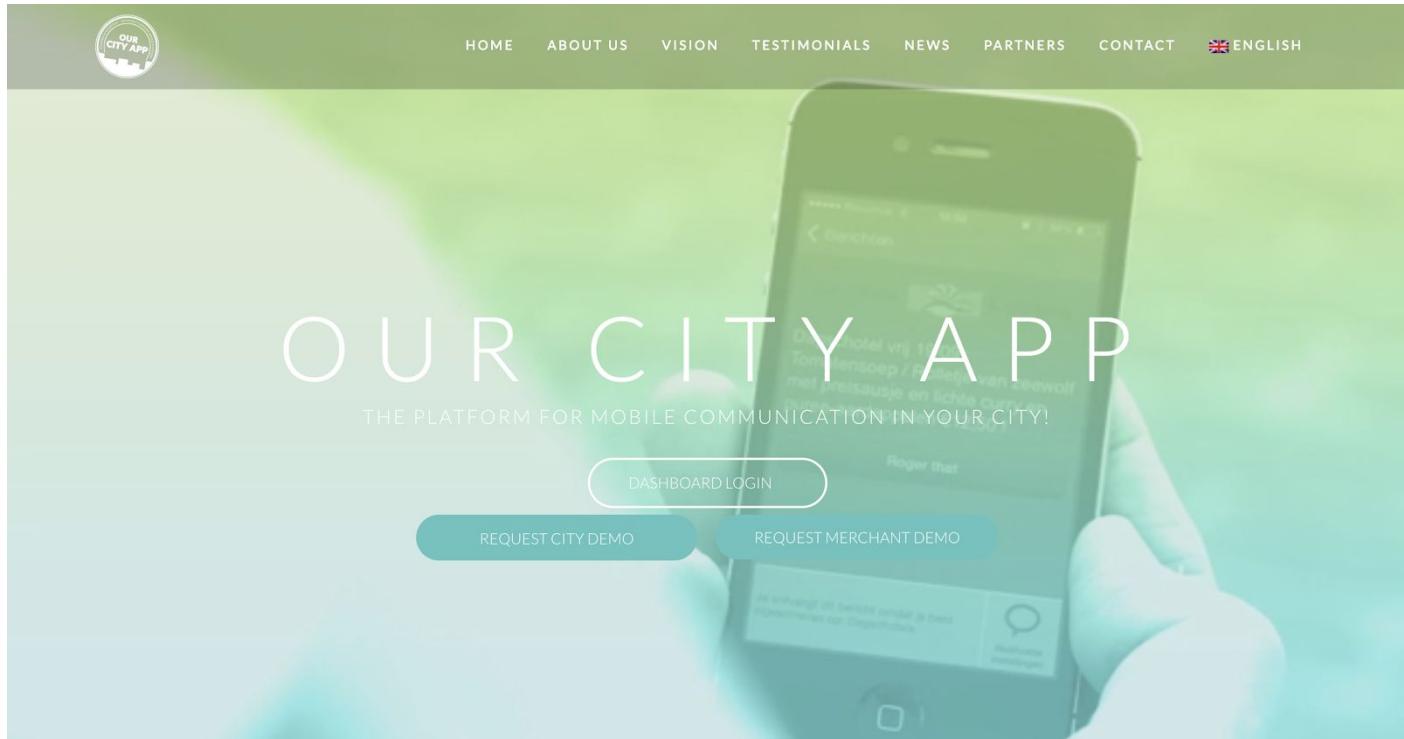

ThreeFold Impact seeks to achieve superior investment returns as well as tangible social impact by financing the deployment of the ThreeFold Grid — a fully decentralized, neutral and green internet capacity network.

- Return on investment is based on a pre-agreed capped return
- Excess returns are reinvested in the country of origin to maximize social impact

Website: <https://threefoldimpact.com/>

This project is not actively worked on today. There are other priorities the foundation needs to focus on first.

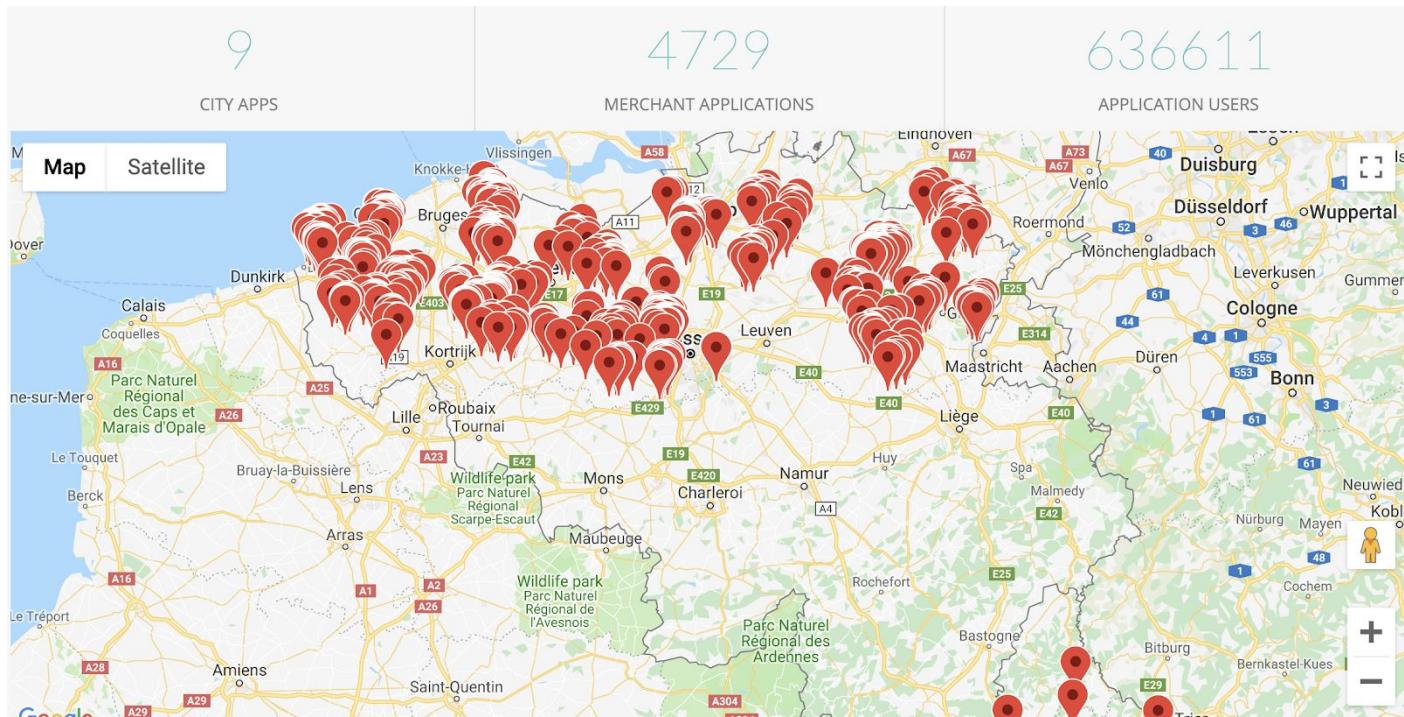

OurCityApp

OurCity app is the application that has everything needed to live in a city. It connects users, merchants and governments into one ecosystem. The platform gathers nine city apps, 5,578 Merchants and 61,2542 users.

Partnership includes integration of the ThreeFold Token for all merchants of the ecosystem.

Website: <https://ourcityapps.com>

This project is alive & kicking!

Tech Partnerships

This section lists companies that are partnered with ThreeFold and are implementing the ThreeFold Tech platform.

HPE

The image shows the homepage of the Hewlett Packard Enterprise (HPE) website. The header includes the HPE logo, navigation links for Products and Solutions, Services, Support, News and Insights, a search icon, a shopping cart icon, and a 'CONTACT' button. Below the header is a large, abstract digital cube composed of numerous smaller cubes, representing a complex data structure or computing power. Overlaid on this background is a white rectangular area containing the title 'WHAT'S NEXT FOR EDGE COMPUTING' in bold, uppercase letters. Below the title is a subtitle: 'How innovations at the edge are transforming manufacturing, entertainment, public safety and more.' To the left of the subtitle is a left arrow icon, and to the right is a right arrow icon. At the bottom left of this white area is a green button labeled 'Read the report'. To the right of the main content area is a dark sidebar featuring a portrait of a woman and text: 'Let's chat! Sales experts are here to help.' Below this text is another green button labeled 'Live Sales Chat'.

HPE and TF cooperate in a non-exclusive partnership that supports common business goals. The cooperation is based on promotion of responsible technology that creates a meaningful IMPACT on humanity and our planet.

1. HPE and TF jointly promote ThreeFold solutions that involve the integration of TF technology within the HPE offerings. Also, TF is added as an HPE Cloud partner to the Cloud28+ Network.
2. Expansion of HPEs revenue opportunity due to TF farming equipment sales. HPE to provide clients with the option to connect idle computing capacity in their data centers to the TF Grid. This provides an additional source of income through digital currency (farming of capacity and reselling capacity to external clients).
3. HPE to provide HPE-specific computing and storage capacity to new clients who seek to farm digital currency (TF Tokens). This capacity can be based on refurbished or new hardware.
4. HPE and TF intend to integrate the TF Grid offering into HPEs Multi-Cloud Portal management software called "OneSphere". This means that clients can choose capacity from various Cloud providers.
5. TF will raise awareness of their offerings by cooperating with a truly global technology company (HPE) and will expand their customer base by the deployment of HPE client capacity to the TF Grid
 - Providing certified farming hardware
 - Farming in Poland and Switzerland
 - Promote ThreeFold farming through [Cloud 28+](#) initiative
 - Grow the grid
 - many projects being worked on & further developed

<https://hpe.com>

Kleos

[LOGIN](#)

Search

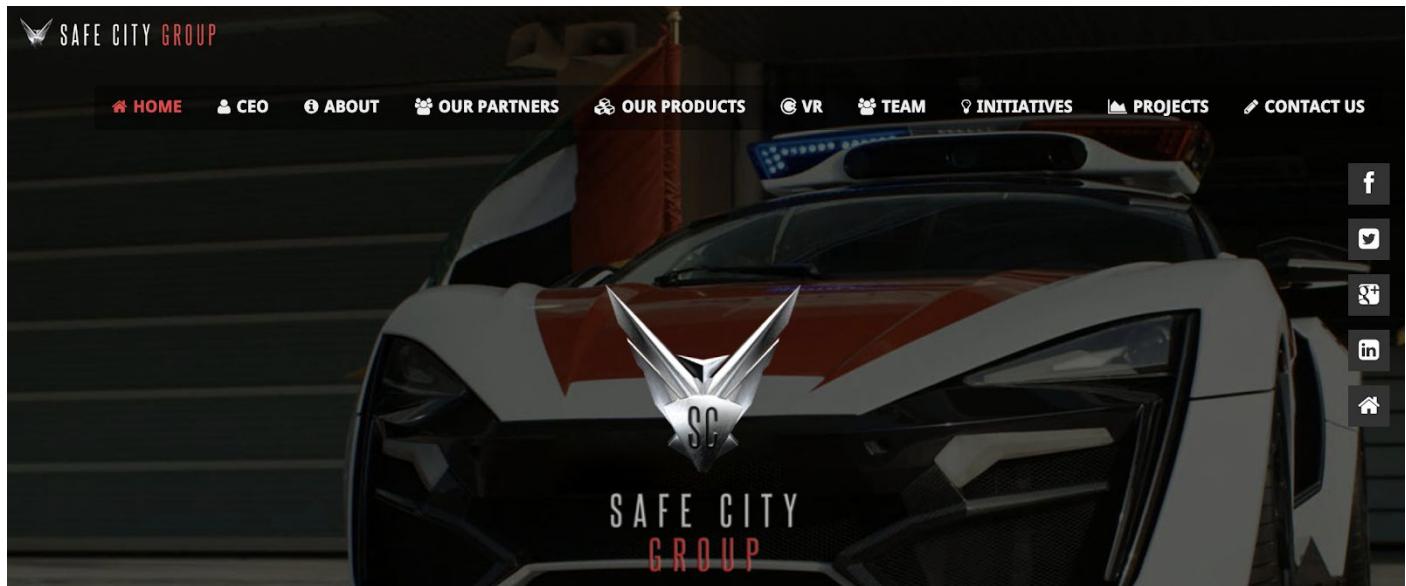

[ABOUT](#)[PRODUCTS & SOLUTIONS](#)[PARTNERS](#)[NEWS & EVENTS](#)[DOWNLOADS](#)[I WANT TO](#)[CONTACT US](#)

A TF Tech strategic partner that aims at becoming the most eco-friendly telecom mediator by leaving a minimal carbon footprint on the environment. This will be accomplished by minimizing the need for bulk production of antennas, base stations and probes, in addition to other innovations.

Providing capacity together with 5G base stations.

Website : <http://kleos.net>

Safe City

Safe City is a technology partner with a core focus on deploying digital technologies within the UAE. They are currently working on deploying autonomous driving cars, advanced police vehicle integrations and secure datacenter facilities across the UAE. SafeCity would will implement TF Platform to scale smart city features to bridge capacity, IOT, security and safety into their ongoing projects.

Website : <https://www.safecity.com/>

Jimber

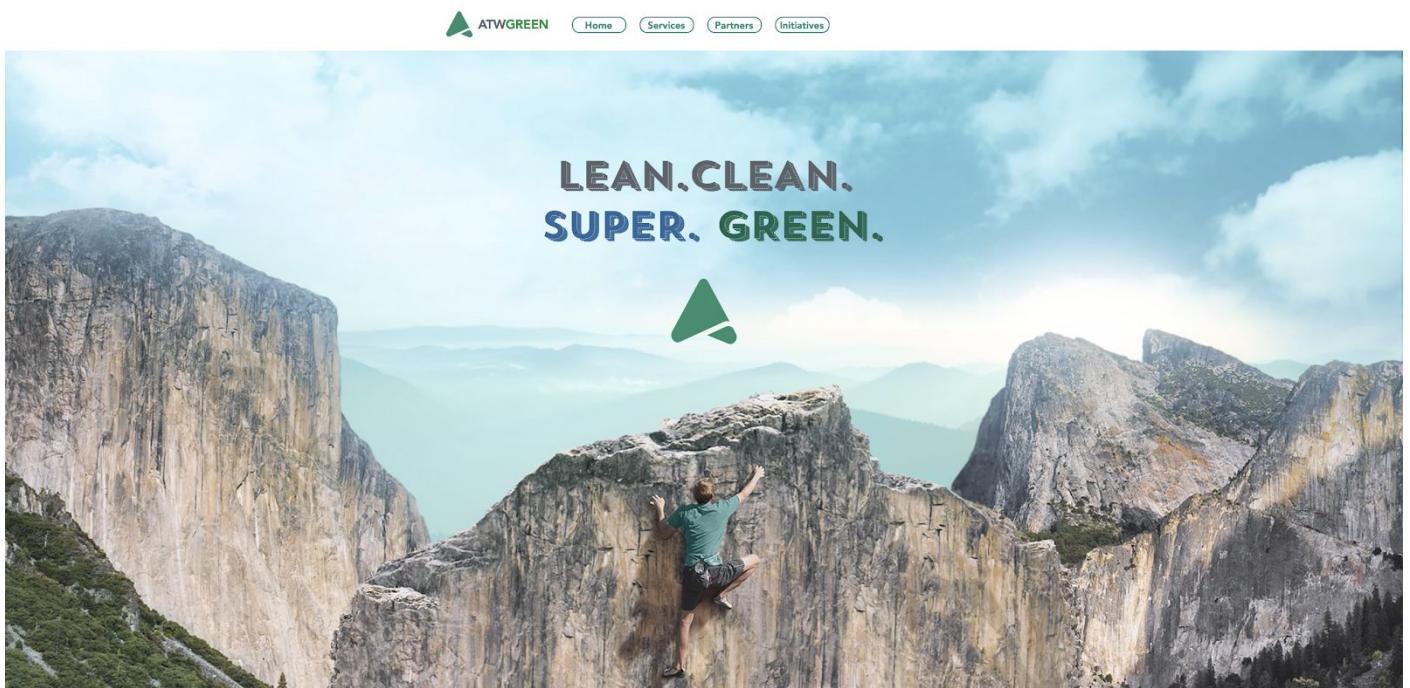

The image shows the homepage of Jimber Software's Security Broker. At the top left is the Jimber logo, which includes the word "Jimber" in a stylized blue font with a small orange "b", and "software" in a smaller sans-serif font below it. To the right of the logo is a three-line menu icon. The main title "SECURITY BROKER" is displayed in large, white, sans-serif capital letters. Below the title is the tagline "Trust no device." in a smaller white font. A descriptive paragraph follows: "Jimber security broker keeps all security risks in the contained environment. We achieve a level of security far beyond the possibilities of today." At the bottom left is a white rectangular button with the word "EXPLORE" in black capital letters. The background is dark blue and features several faint, circular icons related to technology and security, such as a brain, a lock, and a penguin.

Enterprise security solution provider using our TF Grid for enterprise security gateway solutions. One of the products - secure browser: <https://browser.threefold.io>

Website: <https://jimber.org>

ATW.Green: Green Tech. in Dubai

All The Way Green: A green tech company and incubator based in the United Arab Emirates focused on promoting sustainability and energy efficiency by applying ThreeFold technology to improve energy storage, distribution and scalability.

Website: atwg.tech

FreeFlowPages: <https://freeflowpages.com/s/atwgreen>

Incubator and IT Innovator

7 High-Profile Exits
Innovating Blockchain
Accelerating ThreeFold.Tech

[Read More](#)

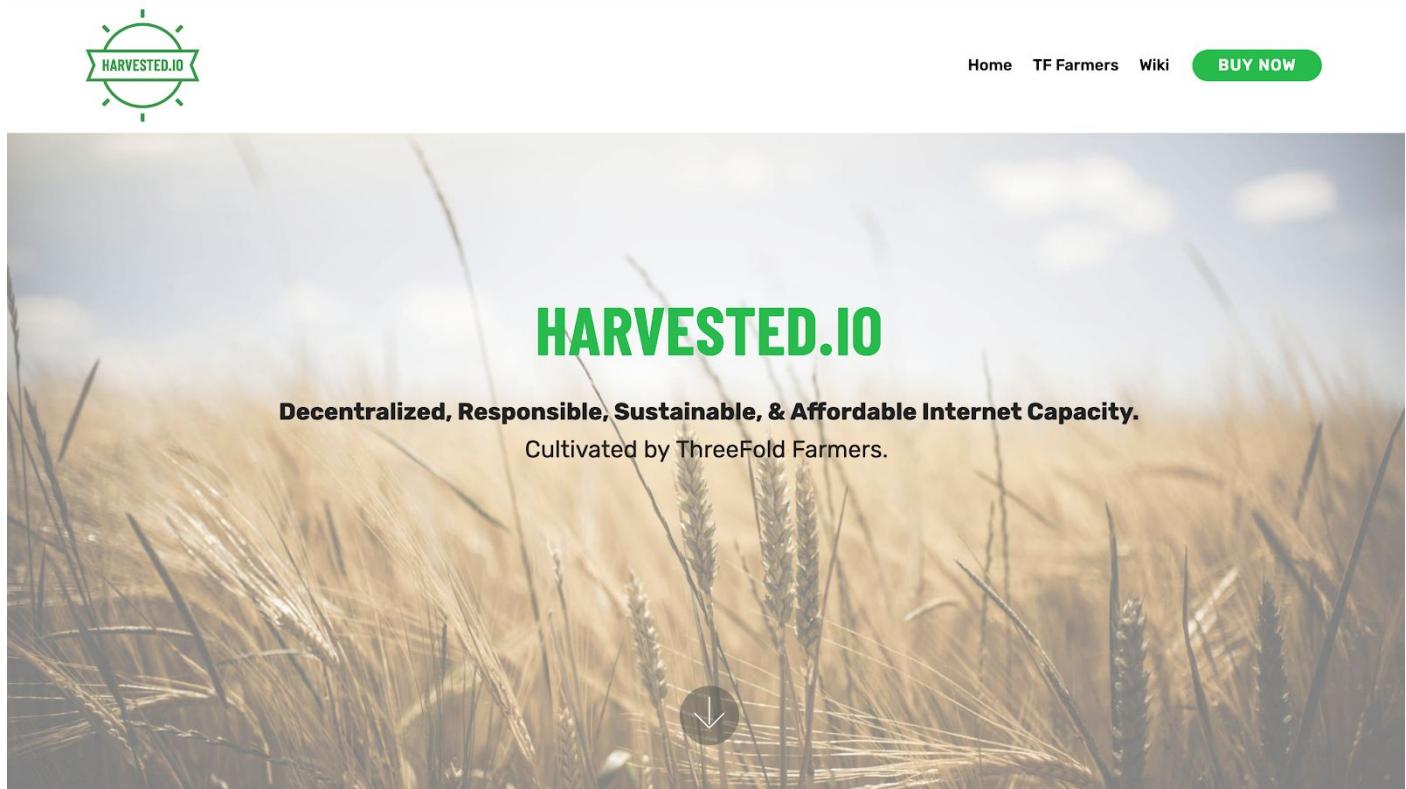

- The incubator from which the ThreeFold movement arose
- This incubator is now raising new funds to be able to invest in new startups that will create solutions on top of the ThreeFold Grid

Website: <https://incubaid.com/>

Application Solutions

ThreeFold Grid and Technology bring innumerable possibilities to develop new types of applications, hosted on a decentralized grid, locally to everyone, while respecting the privacy and data ownership of everyone. Some of the projects that are developing new applications are listed in this section.

Harvested.io

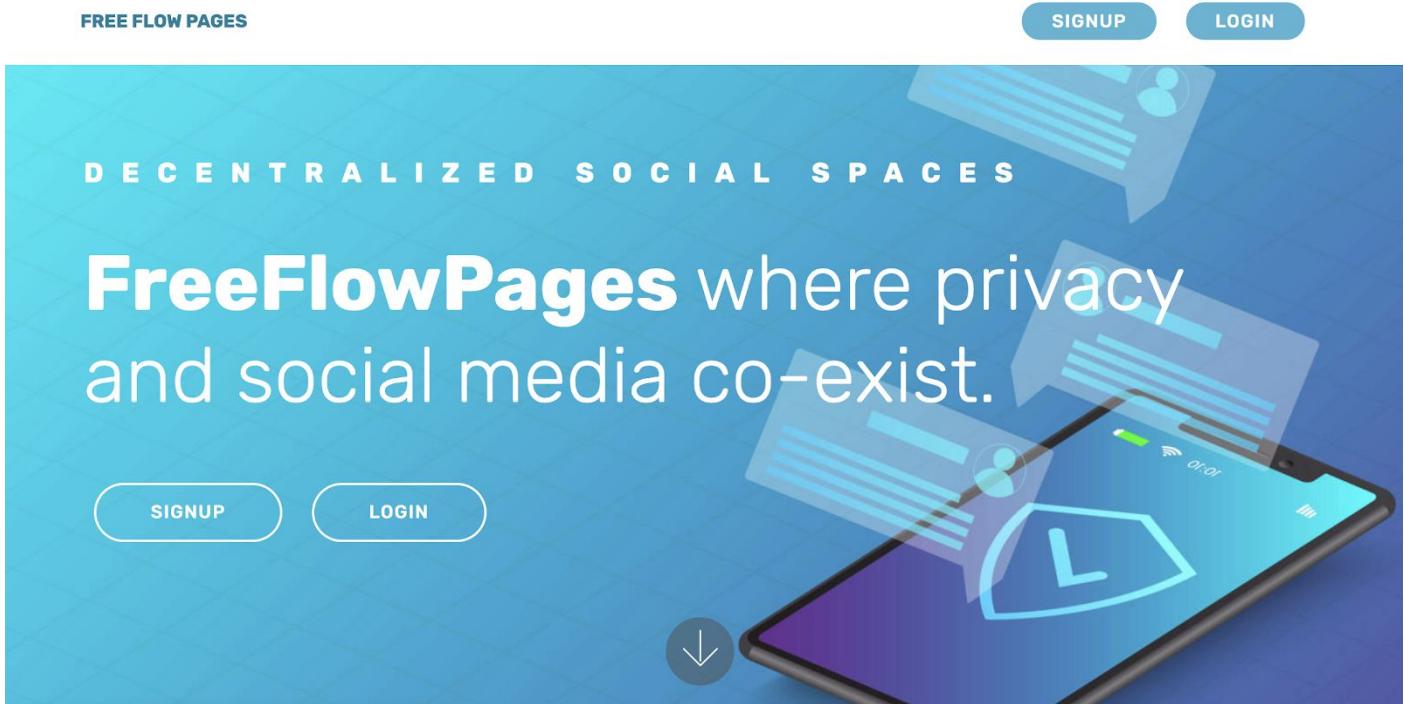

Harvested.io is an initiative to gather capacity available on the ThreeFold Grid and sell it in bulk for a price much lower than that of the current market. This initiative is still in an exploratory phase, prices shown are for mockup purposes.

Website: www.harvested.io

FreeFlowPages: <https://www.freeflowpages.com/s/harvestedio/>

FreeFlow Pages -

FreeFlowPages is a social network that runs on ThreeFold's decentralized capacity network. Each user will have full control over personal data and will be able to create a social page where they can connect with other users on a democratized social news platform.

One of the most exciting features of FreeFlow Pages is that it runs on “3Bot technology” which uses personal virtual assistants to protect user’s experiences and interactions online, ensuring maximum privacy and security because only verified user 3Bots can exchange information. Furthermore, one’s personal space is no longer just a space to explore social news. You will be able to exchange value with a decentralized built-in wallet, use an addon for a decentralized video chat, and use a secure decentralized chat platform where all the features maintain the privacy of the user experience.

It could be that the name FreeFlowPages will be rebranded to OpenWiki.

Website: <http://www.freeflowpages.com>

FreeFlowPages: <https://freeflowpages.com/s/freeflowpages/>

OpenMeeting

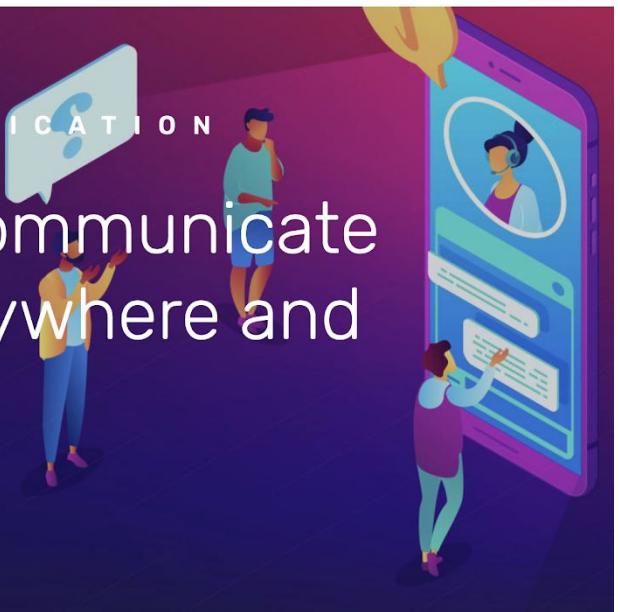

OPENLY.LIVE

HOME VISION ARCHITECTURE SPONSORS

SUBSCRIBE

DECENTRALIZED COMMUNICATION

Openly Connect, Communicate and Collaborate; Anywhere and Everywhere.

A hyper-secure and fast communication platform powered by ThreeFold's decentralized network. A very exciting communication platform release because it uses an intelligent decentralized node routing to maximize call efficiency, privacy and user experience.

OpenMeeting leverages 3Bot technology whereby each individual has a secure virtual assistant ensuring information exchange is only carried out with blockchain-powered bots, enabling a secure and private conversation scalable to billions of users.

OpenMeeting is a democratized communication platform for instant communication with loved ones, friends and colleagues using a web based platform as well as application releases.

OpenMeeting is an all in one chat, messaging and video conferencing tool secured by the blockchain.

Website: <https://OpenMeeting/> (still called <https://Openly.Live> today, rebranding still needs to happen)

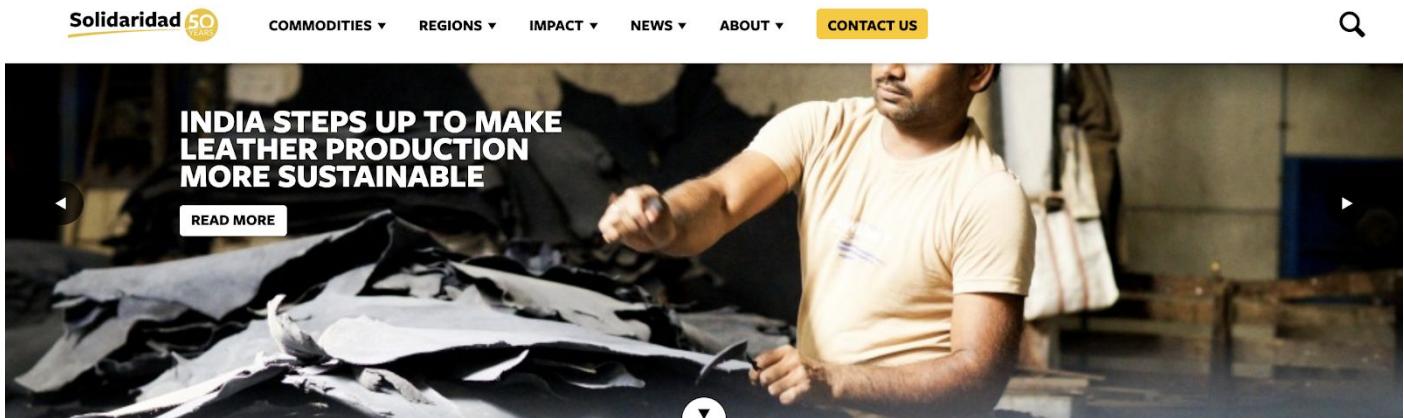

Github: <https://github.com/OpenMeeting>

FreeFlowPages: <https://freeflowpages.com/s/OpenMeeting/>

Grid Farming / Cooperative Partnerships

ThreeFold Grid provides ability for anyone to start a farm and earn income by providing IT capacity to developers and organizations around the world. Below are a list of organizations that have currently invested and or committed to building farming capacity on the TF Grid.

Solidaridad

We work towards sustainable production of the following commodities:

Solidaridad

- Farming capacity & Certification of Farming capacity to be spread among the farmer community
- Commodity Tokens will be created (e.g. a coffee token) using TF Tech blockchain
- Solidaridad can use TF Tech for their own operations

<http://www.solidaridadnetwork.org/>

Mazraa Cooperative

HOME FARM DASHBOARD

SUBSCRIBE

DECENTRALIZED INTERNET CAPACITY

DIGITAL FARMING ON THE THREEFOLD NETWORK

Mazraa is an internet capacity co-operative on the ThreeFold Network. Mazraa hosts internet capacity for developers looking to enable local, secure and affordable storage, compute and networking on a global scale.

An independent Farming Cooperative based in Dubai UAE.

- Activities
 - Runs a hosting farm in Dubai, 120+ servers
 - They are the first farmer on the TF Grid and farm tokens on a monthly basis
 - Anyone in the TF ecosystem can use Mazraa's capacity today
 - Starting January 2019, TFTs have to be paid for this capacity
 - Home to a group of consultants who support the growth of the TF Foundation & TF Grid
 - TF Tech hires some of these consultants
 - Delivers promotional services for the TF Foundation in order to support mainstream exposure and adoption
 - Services currently rendered as complementary

Website: www.mazraa.io

FreeFlowPages: <https://freeflowpages.com/s/mazraa/>

EUROPE'S FIRST THREEFOLD FARMING CO-OPERATIVE

Start farming ThreeFold Tokens in an easy "plug an farm" way with one of our certified node servers

GO TO SHOP

- Independent Farming Cooperative for the foundation
- Sometimes also referred to as ThreeFold Technology BVBA, this name is going away
- Operates a datacenter in Lochristi (Belgium) offering hosting and connectivity for TF Farmers
 - Currently, 100+ nodes which are owned by TF farmers
- TFTech NV uses some of their equipment today for development
 - a monthly fee will have to be defined, free today
- Activities from the past (NO LONGER ACTIVE)
 - Sell of small servers to TF Farmers, was done mainly via an online webshop
 - Development of open source components for the TF ecosystem
- Income
 - Hosting fees for the maintenance & running of the farmer pool
- Future
 - Undefined, will be announced in TF Ecosystem

Website: <http://bettertoken.com>

FreeFlowPages: <https://freeflowpages.com/s/bettertoken/>

FAQ

Europe's biggest and most secure farming datacenter located in Switzerland

START FARMING THREEFOLD TOKENS NOW!

It's super simple - your farming infrastructures are already up and running. We connect you to the Threefold Grid and your IT capacity goes live.
We take care of everything else in our datacenter!

- Bancadati is a datacenter hosting a TF Farm in the Swiss Alps
- In cooperation with TFTech, Bancadati is about launch one of Europe's largest archives
- This will be listed on the TFGGrid where people can buy capacity.

Websites: <https://www.bancadati.ch/> / <https://www.bancadati.farm>

Green Edge Cloud

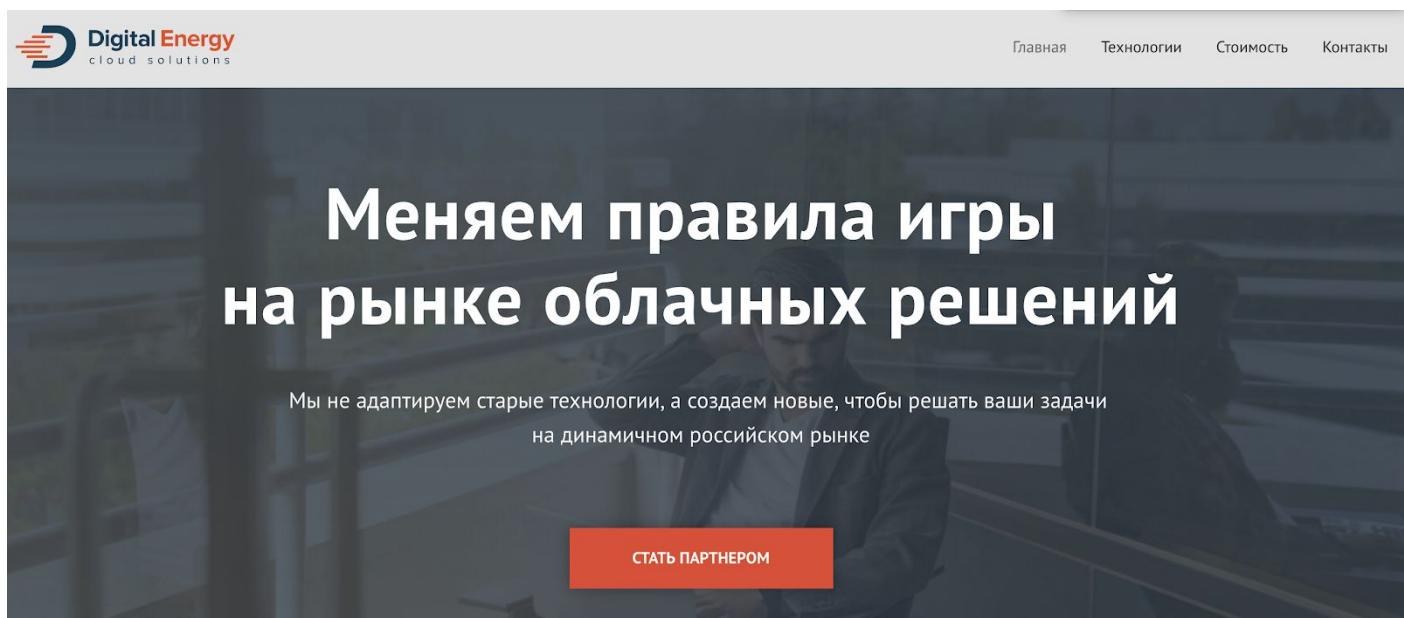

The homepage features a top navigation bar with links for HOME, TEAM, CONTACT, TF RADAR, and social media icons for Facebook, Twitter, and LinkedIn. Below the navigation is a large central logo consisting of a stylized green cloud icon above the text "GREEN EDGE CLOUD". Underneath the logo is the tagline "The First Global ThreeFold Certified Farmer".

- A global ThreeFold Farm
- Current farms in US, CAN, South Africa and Austria
- Next farms in rollout for Central/Eastern Europe and Asia

Website: <https://greenedgecloud.com>

FreeFlow Pages: <https://freeflowpages.com/s/green-edge-cloud/>

Digital Energy

The homepage features a top navigation bar with links for Главная (Home), Технологии (Technologies), Стоимость (Cost), and Контакты (Contacts). The main visual is a blurred background image of a person working on a server. Overlaid on the image is a large white text block containing the Russian slogan "Меняем правила игры на рынке облачных решений" (Changing the rules of the game on the cloud solutions market). Below this, a smaller text block reads: "Мы не адаптируем старые технологии, а создаем новые, чтобы решать ваши задачи на динамичном российском рынке" (We do not adapt old technologies, we create new ones to solve your tasks on the dynamic Russian market). At the bottom is a red call-to-action button labeled "СТАТЬ ПАРТНЕРОМ" (Become a partner).

DigitalEnergy is a large ThreeFold farmer with a datacenter based in Moscow, Russia.

Website: <https://digitalenergy.online/>

ThreeFold Chapters

Chapters are independent groups of people and organizations that represent and promote the ThreeFold Foundation, Ecosystem & Technology to the general public. Chapters also assist newcomers to onboard within the TF ecosystem. Chapters themselves may also be engaged in farming, product development and investment within the ThreeFold Ecosystem. In order to start a TF Chapter one needs to become a TF Ambassador.

- **Cherry Chapter, Vienna**

Vienna based farm. A company established similar to agricultural cooperative consisting so far of 17 members, each paying membership fee which is used to purchase farming equipment. Can scale infinitely. This chapter onboards small investors via a registered cooperative.

Coordinator: [Wolfgang Wittmer](#)

FreeFlow Pages: <https://freeflowpages.com/s/vienna-cherry-chapter/space/space/home>

- **Social Media Chapter, Austria**

FreeFlow Pages:

- **ThreeFold Americas Chapter**

TFAmericas is a chapter to include all the Americas. Within it there are subchapters from different regions/areas in the Americas. TFAmericas will be an information hub for TF activities/events etc happening in the Americas. This may include cross references to the TFYOUTHGroup or the TFLove initiatives in the Americas. The subchapter in Reno, NV wants to assist TFTech and TF Foundation to pursue government contracts for bringing up TF capacity in rural areas, on tribal lands, in community colleges, to engage in projects with the University of Nevada innovation centers (public), to engage in community meetings to begin TF farming, to apply TF technology to scientific research installations at the Desert Research Institute (non-profit environmental research arm of the [Nevada System of Higher Education](#)) and other use cases for industry, for individuals and small businesses.

Coordinator: [Jennifer Long](#)

FreeFlowPages: <https://freeflowpages.com/s/tf-americas/>

- **ThreeFold KCM Chapter, USA**

A subchapter of the TFAmericas chapter. Community engagement and TF Farming opportunities in the Kansas City Metro area.

Coordinator: [Michael Gaffney](#)

FreeFlow Pages:

- **TF Youth Chapter, Ibiza**

Creates partnerships and projects that promote TF among youth communities, and aims to make youth engagement programs a primary social impact activity related to TF.

Coordinators: Isabelle Peeters

FreeFlowPages: <https://freeflowpages.com/s/tf-youth-chapter/>

Coordinator: Lieve Vereycken

FreeFlowPages: <https://freeflowpages.com/s/coinpetto/>

If you feel inspired to create your own chapter, please connect with the TF Ambassador Admin Team to get started! ([Owen Kemp](#), [Gregor Sideris](#), [Simin Gerards](#), Nisha Grimes or [Olivia Jurado](#))

TFT Exchanges

Decentralized Exchange

Based on atomic swaps.

Operational since May 2018.

Only usable by technical people. Allows anyone to exchange digital currencies without a centralized exchange. Once the 3bot will be launched it will allow everyone to exchange these digital currencies without effort and centralization.

Farmers As Exchange

Each farmer can sell and buy ThreeFold Tokens.

Two examples: Bettertoken in Belgium & Mazraa in Dubai

The majority of TFT are sold & bought today through these farmers.

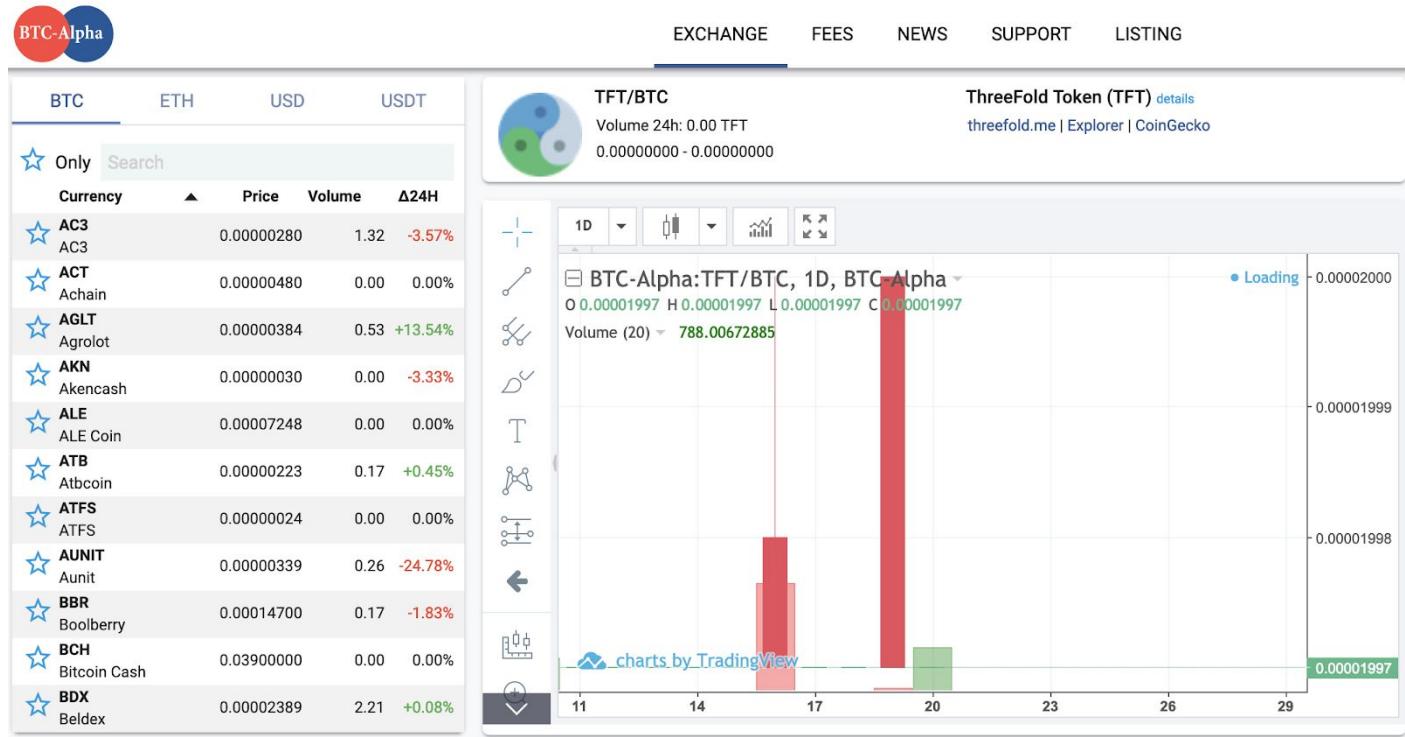

Buying a TFT is legally spoken as buying capacity from the ThreeFold grid.

ERC 20 compatible TFT Token

TFT is ERC 20 compatible, anyone owning ERC 20 tokens (like Ethereum) can buy/sell TFTs in a seamless fashion.

This technology is available; ask the ThreeFold team for more info.

BTC-Alpha Exchange

First exchange listed ThreeFold Token. Available to trade in pair with BTC and USD.

https://btc-alpha.com/en/exchange/TFT_BTC/

Bitmeex.pro Exchange

AND 623 OTHERS.

ThreeFold Token available to buy with wire transfer in UAE

<https://bitmeex.pro/>
